

Shanthi Reddy
Co-Founder

Shanthi is the co-founder of GGK. She interacts with customers on a regular basis and makes sure that applications are built according to customer's requirements. She also works with the project teams at GGK to make sure that high-quality standards are implemented in their processes.

Prior to GGK, she worked for four years at Microsoft first in the InfoPath team where she very soon became the top performer in her team. She later joined the Visual Studio team. Shanthi left Microsoft and was one of the co-founders of GGK. She has had very good relations with every customer that she worked for and has also been complimented as being the goddess of competence and reliability by one of the customers.

She holds a Bachelors degree in Computer Science. During her free time, she likes to play with her daughter Vaishnavi and son Siddartha.
